Nicole Sylvester, **PMO Director**

"My background as a visual communicator as well as teacher dovetail nicely with Wimmer's dynamic reach to the community"

As Wimmer Solutions' PMO Director, Nicole is responsible for overseeing the organization's project portfolio and managed services. As a member of the company's Strategic Management Team, she works closely with other company leaders to define and implement long-term growth plans for providing outsourced, deliverable-based solutions to our clients.

With more than 12 years experience in graphic design and communications, Nicole has had the chance to delve into several arenas of the business since she began working with the company in 2007, including operations, business development, marketing and brand management. Before joining Wimmer Solutions, she served as Creative Director for Seattle Urban Pages. In the six years prior, she was a full-time elite athlete in the sport of women's rowing.

As a member of the US National Team, she won a silver medal in the Women's 8+ event at the 2006 World Cup in Luzern, Switzerland, and competed in the Women's 4x at the 2005 World Championships in Gifu, Japan. After moving to Seattle in 2006, Nicole spent many mornings training in front of Wimmer's Lake Union headquarters before hanging up her oars in 2008.

In addition to her role as Wimmer Solutions' PMO Director, Nicole leads the company's Community Engagement Program, which connects internal employees and consultants with meaningful volunteerism opportunities. She is also Wimmer Solutions' representative to the Corporate Volunteer Council of Puget Sound, an organization dedicated to foster strong and effective employee volunteerism.

Featured Case Study, *Client Name*

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic **typesetting**, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including Lorem Ipsum.
