*The beauty of the beast.*

**2013 Men's A-Lotta** The award winning A-Lotta ski is fat, and it's beautiful. This sultry beast will carve up any big mountain on any day. It cuts through crud, carves down groomers and floats through the deep stuff like no other ski you have tried. Roar!

*Beautiful and somewhat nasty.*

**2013 Men's I-Rock** Big is beautiful and when it comes to fat skis you'll love the "early rise" in the I-Rock's tip and tail. The dimensions of this ski are nasty in all conditions and all terrain. Whether you're cutting through crud, carving groomers or floating through the deep stuff! Hiss.

*Nice kitty, kitty.*

**2013 Women's V-Rock** They're voluptuous. Balanced and aggressive. A nice girl's dream in all the powder you can eat all while tearing up the cat nip a mountain holds for you. Once you go fat you'll never go back. Purr.
